ACHIEVE

🌿 EYFS

I begin to learn words about
the world around me.

map

globe

world

place

beach

sea

river

island

weather

environment

I can talk about the places
I see around me.

Years 1 & 2

I learn new words to help me
describe places and compare them.

atlas

continent

country

capital city

compass

north, south,
east, west

map key

hill

forest

village

city

habitat

hot

cold

I can use these words to describe
and compare places.

Years 3 & 4

I use more precise geographical
language to explain how our world works.

region

grid reference

mountain

volcano

climate zone

desert

biome

river

estuary

population

agriculture

renewable
energy

deforestation

Equator

latitude

longitude

I can investigate places and explain
why they are different.

Years 5 & 6

I think like a geographer, using specialist
vocabulary to explain and investigate the world.

tectonic plate

earthquake

tsunami

erosion

delta

sustainability

conservation

GIS

infrastructure

trade

tourism

stakeholder

trade-off

climate change

resilience

I can use this vocabulary to explain,
make connections and suggest solutions
for a better world.

Our Geography Genius Goals

Curiosity

Brighter Tomorrows

Using Maps and
Finding Places

Understanding and
Using Information

Asking Questions
and Exploring

Sharing Ideas

Looking Closely
and Spotting Differences

Caring for the
Environment

Small steps. Big ideas. A brighter future!

By the time I leave
Jotmans Hall Primary School...

I will understand and confidently use
geographical vocabulary to explore,
describe and explain our amazing world
and help make a positive difference.
